

The simple, scalable, highly available solution for modern virtualization.

Edge Computing and Hyperconverged Infrastructure

Scale Computing brings together virtualization, servers, storage, and backup/disaster recovery into a single solution. Highly automated with machine intelligence, Scale Computing HyperCore (SC//HyperCore) infrastructure is built to eliminate downtime and be easy to manage for any computing environment.

Simplicity

Ease of use and simplified management are what SC//HyperCore does best. SC//HyperCore and SC//Fleet Manager eliminate mundane management tasks, saving the valuable time of IT administrators to allow them to focus on innovation and improving business processes. The simplicity of SC//HyperCore directly impacts IT with higher productivity and lower costs.

Scalability

One of the most challenging tasks for IT can be adding capacity to existing infrastructure. With SC//HyperCore, the simplicity of design and ease of use allow for seamless scaling. New appliances can be added into a running cluster seamlessly, within minutes, and without disruption to any running workloads.

Availability

Intelligent automation, redundancy, high availability, and resiliency are built into SC//HyperCore in every way, including the option of disaster recovery as a service. With SC//HyperCore, planned and unplanned downtime can be virtually eliminated, creating more confidence with customers both internal and external.

Virtualization The Old Way

Virtualization With SC//HyperCore

- Web-Based Management
- Non-Disruptive System Updates
- Self-Healing Architecture
- Rapid Deployment
- Backup and Replication
- Seamless Scale Out

SC//Platform: Hyperconverged Infrastructure Delivered as an Appliance

Run your critical applications on a fully integrated platform for the easiest manageability and highest availability, wherever you need them.

Regardless of your hardware requirements, the same innovative software and intuitive user interface give you the power to run infrastructure efficiently both in the data center and at the edge.
